**L'Argus de l'assurance no. 7737, 17 December 2021. Ranking based on 2020 revenues.

*** The contribution to Crédit Agricole S.A.'s net income, group share came to €1,406 million. The difference in relation to Crédit Agricole Assurances' net income, group share stems essentially from management restatements allocating to the insurance business Crédit Agricole S.A. management expenses, on the one hand (mainly the cost of the Switch guarantee, for around €95 million, and reclassification of the repayment of the €56 million balancing payment made to Crédit Agricole S.A.), and the coupons on RT1 subordinated debt issuance for €76 million, on the other hand.

**** Increases are restated for an accounting method change; not restated, 5.2% for property & casualty and 9.7% for death & disability / creditor / group insurance.
