

## ***La Médicale Multirisque Pro: the new policy from La Médicale designed to meet the needs of healthcare professionals***

**La Médicale, a Crédit Agricole Assurances group company, is introducing a new version of its comprehensive policy for healthcare professionals, designed to provide them with the best possible protection in the event of a claim. The policy was developed by La Médicale in close co-operation with its network of general agents, who have a direct relationship with professionals in the healthcare sector.**

*La Médicale Multirisque Pro* now offers three versions of the same policy, one of which is designed especially for opticians, to meet the specific needs of healthcare professionals:

**- A version suitable for all healthcare professionals, comprising:**

- ❖ A policy covering premises and/or equipment with two options:
  - “Essentielle” with a choice of five levels of sum insured ranging from €15,000 to €120,000. This option is aimed at general practitioners, paramedics and companies for the common parts of their premises.
  - “Confort”, which is a revenue-based policy with the choice of covering 30%, 50%, 80% or 100% of revenues. This option is aimed more specifically at specialist doctors who need more cover.
- ❖ A “business interruption” policy based on revenues, which covers a fall in earnings in the event of a claim. It can be taken out either on a stand-alone basis or in addition to Essentielle or Confort. A lump-sum benefit is proposed for short-term interruptions to enable quick payment in case of claim while traditional benefit arrangements apply to longer interruptions.

**- A new “OpticGlobale” policy for opticians**

La Médicale is now extending its policy to cover opticians. OpticGlobale is a comprehensive revenue-based policy that covers the optician’s retail premises, business interruption, loss of market value and civil liability.

**- A specific policy for equipment only**

This policy is based on equipment value and is aimed at healthcare professionals who need expensive equipment or whose equipment is crucial to their practice.

**About La Médicale**

La Médicale is a leading player in its market with €378 million in premium income and more than 490,000 in-force policies at the end of 2010.
